Subject Index

Abducens nerve
  Detailed magnetic resonance imaging anatomy of the cisternal segment of the abducent nerve: Dorello's canal and neurovascular relationships, and landmarks, 276
Abscess
  Endovascular occlusion of a carotid pseudoaneurysm complicating deep neck space infection in a child. Case report, 510
  Glioblastoma multiforme at the site of metal splinter injury: a coincidence? Case report, 1041
  Rapid gas-forming brain abscess due to Klebsiella. Case illustration, 1060
Acoustic neuroma
  Endoscopy of the posterior fossa and dissection of an acoustic neuroma, 776
Adenoma
  Antisense oligonucleotide–induced inhibition of adrenocorticotropic hormone release from cultured human corticotrophs, 261
Adenosine hypotension
  Adenosine-induced transient asystole for management of a basilar artery aneurysm. Case report, 687
Adrenocorticotropic hormone
  Antisense oligonucleotide–induced inhibition of adrenocorticotropic hormone release from cultured human corticotrophs, 261
Alzheimer's disease
  Intraventricular infusion of nerve growth factor as the cause of sympathetic fiber sprouting in sensory ganglia, 447
American Association of Neurological Surgeons
  Is the age of heroes gone? The 1999 presidential address, 531
Amnesia
  Hippocampal ischemia in a patient who experienced transient global amnesia after undergoing cerebral angiography. Case illustration, 347
Anatomical study
  Computer-generated microsurgical anatomy of the basilar artery bifurcation. Technical note, 145
  Detailed magnetic resonance imaging anatomy of the cisternal segment of the abducent nerve: Dorello's canal and neurovascular relationships and landmarks, 276
  Microsurgical anatomy of the extracranial–extradural origin of the posterior inferior cerebellar artery, 645
  Topographic anatomy of the cochlear nuclear region at the floor of the fourth ventricle in humans, 466
Aneurysm
  Adenosine-induced transient asystole for management of a basilar artery aneurysm. Case report, 687
  An intracranial aneurysm on the feeding artery of a cerebellar hemangioblastoma. Case report, 136
  Application of a rigid endoscope to the microsurgical management of 54 cerebral aneurysms: results in 48 patients, 231
  Balloon angioplasty of the A_1 segment of the anterior cerebral artery narrowed by vasospasm. Technical note, 153
  Blister or berry aneurysm. Letters, 1062, 1063
  Blisterlike aneurysms. Letters, 164, 166
  Computerized tomography angiography in patients with subarachnoid hemorrhage: from aneurysm detection to treatment without conventional angiography, 761
  Endosaccular aneurysm occlusion with Guglielmi detachable coils for obstructive hydrocephalus caused by a large basilar tip aneurysm. Case report, 675
  Evolution of a dolichoectatic aneurysm into a giant serpentine aneurysm during long-term follow up. Case illustration, 346
  Family history of subarachnoid hemorrhage and the incidence of asymptomatic, unruptured cerebral aneurysms, 391
  Giant aneurysm associated with a large cyst. Case illustration, 160
  Growing blood clot mimicking an aneurysm on postoperative computerized tomography and magnetic resonance imaging studies. Case report and review of the literature, 679
  International Subarachnoid Aneurysm Trial. Letter, 352
  Late angiographic follow-up review of surgically treated aneurysms, 396
  Middle meningeal artery aneurysm. Case illustration, 518
  The prophylactic use of transluminal balloon angioplasty in patients with Fisher Grade 3 subarachnoid hemorrhage: a pilot study, 51
  Quantitative assessment of vessel flow integrity for aneurysm surgery. Technical note, 1050
  Results of early surgical evacuation of packed intraventricular hemorrhage from aneurysmal rupture in patients with poor-grade subarachnoid hemorrhage, 408
  Ruptured anterior communicating artery aneurysm encased in a tuberculum sellae meningioma. Case report, 871
  Three-dimensional computerized tomography angiography in patients with hyperacute intracerebral hemorrhage, 424
Aneurysm clip
  Magnetic quantification. Letters, 716, 718
Angiography
  Correlation of the relationships of brain–tumor interfaces, magnetic resonance imaging, and angiographic findings to predict cleavage of meningiomas, 384
  Hippocampal ischemia in a patient who experienced transient global amnesia after undergoing cerebral angiography. Case illustration, 347
  An intracranial aneurysm on the feeding artery of a cerebellar hemangioblastoma. Case report, 136
  Late angiographic follow-up review of surgically treated aneurysms, 396
Angioma
  Intraosseous orbitosphenoidal cavernous angioma. Case report, 1034
Angioplasty
  Balloon angioplasty of the A_1 segment of the anterior cerebral artery narrowed by vasospasm. Technical note, 153
  Long-term effects of in vivo angioplasty in normal and vasospastic canine carotid arteries: pharmacological and morphological analyses, 100
  Percutaneous transluminal angioplasty for intracranial atherosclerotic lesions: evolution of technique and short-term results, 415
Anterior cerebral artery
  Balloon angioplasty of the A_1 segment of the anterior cerebral artery narrowed by vasospasm. Technical note, 153
  Serial angiography and endovascular treatment of dissecting aneurysms of the anterior cerebral and vertebral arteries. Case report, 682
Anterior choroidal artery
  Ruptured cerebral pseudoaneurysm caused by the removal of a ventricular catheter. Case report, 1031
Anterior communicating artery
  Ruptured anterior communicating artery aneurysm encased in a tuberculum sellae meningioma. Case report, 871
Anterior fossa
  Transciliary subfrontal craniotomy for anterior skull base lesions. Technical note, 892
Anterior transpetrosal approach
  Trigeminal neurinomas extending into multiple fossae: surgical methods and review of the literature, 202
Apoptosis
  Apoptotic elimination of peripheral T lymphocytes in patients with primary intracranial tumors, 935
  Effects of N-6 essential fatty acids on glioma invasion and growth: experimental studies with glioma spheroids in collagen gels, 989
  Enhanced radiosensitivity of malignant glioma cells after adenoviral p53 transduction, 997
  Oxyhemoglobin-induced apoptosis in cultured endothelial cells, 459

Arachnoid cyst
Endoscopy for cysts. Letters, 1067, 1068
Arachnoid villi
Human arachnoid villi response to subarachnoid hemorrhage: possible relationship to chronic hydrocephalus, 80
Arachnoiditis
Endoscopic removal of cysticercal cysts within the fourth ventricle. Technical note, 340
Arnold-Chiari malformation
Elucidating the pathophysiology of syringomyelia, 553
Arteriovenous fistula
Arteriovenous fistula with associated aneurysms coexisting with dural arteriovenous malformation of the anterior inferior falx. Case report and review of the literature, 303
Arteriovenous malformation
Arteriovenous fistula with associated aneurysms coexisting with dural arteriovenous malformation of the anterior inferior falx. Case report and review of the literature, 303
Astrocytoma
Involution of enhancing intrinsic tectal tumors after endoscopic third ventriculostomy. Report of two cases, 863
Atherosclerosis
Percutaneous transluminal angioplasty for intracranial atherosclerotic lesions: evolution of technique and short-term results, 415
Autoregulation
Hemodynamic characterization of intracranial pressure plateau waves in head-injured patients, 11

Baclofen
Treatment of cerebral origin spasticity with continuous intrathecal baclofen delivered via an implantable pump: long-term follow-up review of 18 patients, 733
Basic fibroblast growth factor
Expression of angiogenic growth factors in dural arteriovenous fistula, 781
Skull bone regeneration in primates in response to basic fibroblast growth factor, 851
Basilar artery
Computer-generated microsurgical anatomy of the basilar artery bifurcation. Technical note, 145
Efficacy and current limitations of intravascular stents for intracranial internal carotid, vertebral, and basilar artery aneurysms, 538
Quantitative assessment of vessel flow integrity for aneurysm surgery. Technical note, 1050
Berry aneurysm
Blister or berry aneurysm. Letters, 1062, 1063
Biopsy
Histiocytic lesion mimicking intrinsic brainstem neoplasm. Case report, 1037
Use of cytological preparations for the intraoperative diagnosis of stereotactically obtained brain biopsies: a 19-year experience and survey of neuropathologists, 454
Blood-brain barrier
Early alterations in cerebral hemodynamics, brain metabolism, and blood-brain barrier permeability in experimental intracerebral hemorrhage, 1013
Predicting the probability of meningioma recurrence based on the quantity of peritumoral brain edema on computerized tomography scanning, 375
Bone regeneration
Skull bone regeneration in primates in response to basic fibroblast growth factor, 851
Bone tumor
Intraosseous orbitosphenoidal cavernous angioma. Case report, 1034
Book review
Cruz J (ed). *Neurologic and Neurosurgical Emergencies*, 348
Freeman TB, Widner H (eds). *Cell Transplantation for Neurological Disorders. Toward Reconstruction of the Human Central Nervous System*, 519
Grotenhuis JA. *Endoscope-Assisted Microsurgery*, 162
Gunzburg R, Szpalski M (eds). *Whiplash Injuries. Current Concepts in Prevention, Diagnosis, and Treatment of the Cervical Whiplash Syndrome*, 161
Book review (*continued*)
Lunsford LD, Kondziolka D, Flickinger JC (eds). *Gamma Knife Brain Surgery. Progress in Neurological Surgery, Vol. 14*, 348
Malis LI. *Acoustic Neuroma*, 1061
McCulloch JA, Young PH (eds). *Essentials of Spinal Microsurgery*, 712
Pagni CA. *Central Pain: A Neurosurgical Challenge*, 897
Brachial plexus
Initial report on the limited value of hypoglossal nerve transfer to treat brachial plexus root avulsions, 601
Brachial plexus injury
Correlation between histopathological findings in C-5 and C-6 nerve stumps and motor recovery following nerve grafting for repair of brachial plexus injury, 636
Brain biopsy
Frameless stereotaxy with scalp-applied fiducial markers for brain biopsy procedures: experience in 218 cases, 569
Brain injury
Exacerbation of cortical and hippocampal CA1 damage due to posttraumatic hypoxia following moderate fluid-percussion brain injury in rats, 653
Somatosensory evoked potentials in severe traumatic brain injury: a blinded study, 577
Brain mapping
Comparative localization of auditory comprehension by using functional magnetic resonance imaging and cortical stimulation, 626
Localization of language-specific cortex by using magnetic source imaging and electrical stimulation mapping, 787
Localization of hand motor activation in Broca's *pli de passage moyen*, 903
Pericollicular approaches to the rhomboid fossa. Part II. Neurophysiological basis, 768
Brain neoplasm
Expression of vascular permeability factor in craniopharyngioma, 831
Frameless stereotaxy with scalp-applied fiducial markers for brain biopsy procedures: experience in 218 cases, 569
Identification of motor pathways during tumor surgery facilitated by multichannel electromyographic recording, 922
Inhibition of *NF2*-negative and *NF2*-positive primary human meningioma cell proliferation by overexpression of merlin due to vector-mediated gene transfer, 85
Intraoperative validation of functional magnetic resonance imaging and cortical reorganization patterns in patients with brain tumors involving the primary motor cortex, 238
Natural history of asymptomatic colloid cysts of the third ventricle, 364
Overexpression of ***bax*** in human glioma cell lines, 483
Brain stimulation
Thalamic deep brain stimulation for the treatment of head, voice, and bilateral limb tremor, 68
Brain swelling
Ventricular pressure monitoring during bilateral decompression with dura expansion, 953
Brain tumor
Epidermoid cyst arising in the occipital lobe. Case illustration, 711
Brainstem
Brainstem lesions after head injury. Letters, 523, 524
Brainstem tumor
Stereotactic radiosurgery for brainstem metastases, 563
Bromocriptine
Gangliocytoma masquerading as a prolactinoma. Case report, 490
Bulk flow
Convection-enhanced selective excitotoxic ablation of the neurons of the globus pallidus internus for treatment of parkinsonism in nonhuman primates, 294

Carcinoma
Central nervous system metastasis from gallbladder carcinoma mimicking a meningioma. Case illustration, 1059
Carotid artery
Endovascular occlusion of a carotid pseudoaneurysm complicating deep neck space infection in a child. Case report, 510
Carpal tunnel release
The anatomy of the Berrettini branch: implications for carpal tunnel release, 1027

Index

Cavernous sinus
Temporal glioblastoma causing trigeminal neuralgia. Case illustration, 515
Central nervous system
Falcotentorial plasmacytoma. Case report, 132
Rapid infusion of high-dose methotrexate resulting in enhanced penetration into cerebrospinal fluid and intensified tumor response in primary central nervous system lymphomas, 221
Recurrent intracranial Masson's vegetant intravascular hemangioendothelioma. Case report and review of the literature, 308
Cerebellum
Rare occurrence of intracerebellar colloid cyst. Case report, 128
Cerebral aneurysm
Gross and microscopic histopathological findings in aneurysms of the human brain treated with Guglielmi detachable coils, 284
Cerebral blood flow
Influence of rewarming conditions after hypothermia in gerbils with transient forebrain ischemia, 114
A positron emission tomography study of cerebrovascular reserve before and after shunt surgery in patients with idiopathic chronic hydrocephalus, 605
Cerebral edema
Cerebral metabolism in experimental hydrocephalus: an in vivo ^{1}H and ^{31}P magnetic resonance spectroscopy study, 660
Cerebral ischemia
Cerebral metabolism in experimental hydrocephalus: an in vivo ^{1}H and ^{31}P magnetic resonance spectroscopy study, 660
Induction of cyclooxygenase-2 messenger RNA after transient and permanent middle cerebral artery occlusion in rats: comparison with c-fos messenger RNA by using in situ hybridization, 1005
Induction of heat shock protein 70 in the rat brain following intracisternal infusion of autologous blood: evaluation of acute neuronal damage, 843
Neuronal damage in gerbils caused by intermittent forebrain ischemia, 835
Percutaneous transluminal angioplasty for intracranial atherosclerotic lesions: evolution of technique and short-term results, 415
Cerebral palsy
Changes in ankle spasticity and strength following selective dorsal rhizotomy and physical therapy for spastic cerebral palsy, 727
Cerebral perfusion pressure
Prognostic value of early computerized tomography scanning following craniotomy for traumatic hematoma, 581
Cerebral vasospasm
Improved efficiency of hypervolemic therapy with inhibition of natriuresis by fludrocortisone in patients with aneurysmal subarachnoid hemorrhage, 947
Long-term effects of in vivo angioplasty in normal and vasospastic canine carotid arteries: pharmacological and morphological analyses, 100
The prophylactic use of transluminal balloon angioplasty in patients with Fisher Grade 3 subarachnoid hemorrhage: a pilot study, 51
Cerebrovascular disease
Percutaneous transluminal angioplasty for intracranial atherosclerotic lesions: evolution of technique and short-term results, 415
Cervical dystonia
Partial myotomy/myectomy of the trapezius muscle with an asleep-awake-asleep anesthetic technique for treatment of cervical dystonia. Technical note, 889
Chemotherapy
Overexpression of ***bax*** in human glioma cell lines, 483
Chiari malformation
Paroxysmal rage as a presenting symptom of the Chiari I malformation. Report of two cases, 328
Children
Empty sella syndrome: does it exist in children?, 960
Endovascular occlusion of a carotid pseudoaneurysm complicating deep neck space infection in a child. Case report, 510
Functional brain mapping using positron emission tomography scanning in preoperative neurosurgical planning for pediatric brain tumors, 797
Intracranial volume change in childhood, 610
Intracranial volume change in craniosynostosis, 617
Medulloblastoma with extensive nodularity: a variant with favorable prognosis, 971
Chondrosarcoma
Proton radiation therapy for chordomas and chondrosarcomas of the skull base, 432
Chordoma
Proton radiation therapy for chordomas and chondrosarcomas of the skull base, 432
Clinical trial
International Subarachnoid Aneurysm Trial. Letter, 352
Valproate therapy for prevention of posttraumatic seizures: a randomized trial, 593
Clinical trial design
Failure of the competitive *N*-methyl-D-aspartate antagonist Selfotel (CGS 19755) in the treatment of severe head injury: results of two Phase III clinical trials, 737
Cochlear nucleus region
Topographic anatomy of the cochlear nuclear region at the floor of the fourth ventricle in humans, 466
Cognitive impairment
Bilateral simultaneous posteroventral pallidotomy for the treatment of Parkinson's disease: neuropsychological and neurological side effects. Report of four cases and review of the literature, 313
Cognition following subarachnoid hemorrhage from anterior communicating artery aneurysms: relation to timing of surgery, 402
Colloid cyst
Hemorrhagic colloid cyst in a patient with leukemia. Case illustration, 516
Natural history of asymptomatic colloid cysts of the third ventricle, 364
Rare occurrence of intracerebellar colloid cyst. Case report, 128
Coma
Somatosensory evoked potentials in severe traumatic brain injury: a blinded study, 577
Computerized tomography
Growing blood clot mimicking an aneurysm on postoperative computerized tomography and magnetic resonance imaging studies. Case report and review of the literature, 679
Pineal epidermoid cysts: diagnosis and management, 370
Prognostic value of early computerized tomography scanning following craniotomy for traumatic hematoma, 581
Rapid gas-forming brain abscess due to *Klebsiella pneumoniae*. Case illustration, 1060
Computerized tomography angiography
Computerized tomography angiography in patients with subarachnoid hemorrhage: from aneurysm detection to treatment without conventional angiography, 761
Three-dimensional computerized tomography angiography in patients with hyperacute intracerebral hemorrhage, 424
Congenital abnormality
Congenital intraorbital optic nerve cyst. Case report, 325
Correction
Correction. Letter, 354
Cortex
Localization of language-specific cortex by using magnetic source imaging and electrical stimulation mapping, 787
Painful supernumerary phantom arm following motor cortex stimulation for central poststroke pain. Case report, 121
Cortical localization
Localization of language-specific cortex by using magnetic source imaging and electrical stimulation mapping, 787
Cortical stimulation
Comparative localization of auditory comprehension by using functional magnetic resonance imaging and cortical stimulation, 626
Identification of motor pathways during tumor surgery facilitated by multichannel electromyographic recording, 922
Intraoperative validation of functional magnetic resonance imaging and cortical reorganization patterns in patients with brain tumors involving the primary motor cortex, 238
Corticotroph
Antisense oligonucleotide–induced inhibition of adrenocorticotropic hormone release from cultured human corticotrophs, 261
Cranial suture
Efficacy of dural tenting sutures, 180

Craniectomy
Dural sinus thrombosis and pseudotumor cerebri: unexpected complications of suboccipital craniotomy and translabyrinthine craniectomy, 192
Paroxysmal rage as a presenting symptom of the Chiari I malformation. Report of two cases, 328
Ventricular pressure monitoring during bilateral decompression with dural expansion, 953
Craniopharyngioma
Expression of vascular permeability factor in craniopharyngioma, 831
Rapid enlargement and recurrence of a preexisting intrasellar craniopharyngioma during the course of two pregnancies. Case report, 322
Craniosynostosis
Intracranial volume change in craniosynostosis, 617
Craniotomy
Dural sinus thrombosis and pseudotumor cerebri: unexpected complications of suboccipital craniotomy and translabyrinthine craniectomy, 192
Efficacy of dural tenting sutures, 180
Postoperative swelling of pericranial pedicle graft producing intracranial mass effect. Report of two cases, 124
Transciliary subfrontal craniotomy for anterior skull base lesions. Technical note, 892
Vascularized pedicle graft. Letters, 1065
Cushing's disease
Complications in a contemporary series of patients who underwent transsphenoidal surgery for Cushing's disease, 175
Cushing's syndrome
Antisense oligonucleotide–induced inhibition of adrenocorticotropic hormone release from cultured human corticotrophs, 261
Cyst
Giant aneurysm associated with a large cyst. Case illustration, 160
Sagittal sinus occlusion by intraluminal dural cysts. Report of two cases, 867
Cysticercosis
Endoscopic removal of cysticercal cysts within the fourth ventricle. Technical note, 340
Cytological analysis
Use of cytological preparations for the intraoperative diagnosis of stereotactically obtained brain biopsies: a 19-year experience and survey of neuropathologists, 454

Deafferentiation
Resolution of central pain. Letters, 715, 716
Decompressive surgery
Ventricular pressure monitoring during bilateral decompression with dura expansion, 953
Deep vein thrombosis
Complications in a contemporary series of patients who underwent transsphenoidal surgery for Cushing's disease, 175
Dendritic cell
Histiocytic lesion mimicking intrinsic brainstem neoplasm. Case report, 1037
Depolarization
Neuronal damage in gerbils caused by intermittent forebrain ischemia, 835
Depth electrodes
Cerebral microdialysis combined with single-neuron and electroencephalographic recording in neurosurgical patients. Technical note, 697
Digital subtraction angiography
Computerized tomography angiography in patients with subarachnoid hemorrhage: from aneurysm detection to treatment without conventional angiography, 761
Dissecting aneurysm
Fusiform vertebral artery aneurysms as a cause of dissecting aneurysms. Report of two autopsy cases and a review of the literature, 139
Serial angiography and endovascular treatment of dissecting aneurysms of the anterior cerebral and vertebral arteries. Case report, 682
Dopamine
Immunosuppression for neural xenografts: a comparison of cyclosporin and anti-CD25 monoclonal antibody, 109
Drug delivery
Convection-enhanced selective excitotoxic ablation of the neurons of the globus pallidus internus for treatment of parkinsonism in nonhuman primates, 294
Dura
Middle meningeal artery aneurysm. Case illustration, 518
Dural arteriovenous fistula
Expression of angiogenic growth factors in dural arteriovenous fistula, 781

Electroencephalography
Increased incidence and impact of nonconvulsive and convulsive seizures after traumatic brain injury as detected by continuous electroencephalographic monitoring, 750
Intracerebral microdialysis. Letters, 722, 723
Electromyography
Identification of motor pathways during tumor surgery facilitated by multichannel electromyographic recording, 922
Electrophysiological monitoring
Identification of motor pathways during tumor surgery facilitated by multichannel electromyographic recording, 922
Embolization
Endosaccular aneurysm occlusion with Guglielmi detachable coils for obstructive hydrocephalus caused by a large basilar tip aneurysm. Case report, 675
Embryonic tumor
Medulloblastoma with extensive nodularity: a variant with favorable prognosis, 971
Empty sella syndrome
Empty sella syndrome: does it exist in children?, 960
Endoscopy
The anatomy of the Berrettini branch: implications for carpal tunnel release, 1027
Application of a rigid endoscope to the microsurgical management of 54 cerebral aneurysms: results in 48 patients, 231
Endoscopic removal of cysticercal cysts within the fourth ventricle. Technical note, 340
Endoscopy for cysts. Letters, 1067, 1068
Endoscopy of the posterior fossa and dissection of an acoustic neuroma, 776
Neuroendoscopic approach to tectal tumors: a consecutive series, 964
Ventricular volume following third ventriculostomy, 20
Endothelial cell
Oxyhemoglobin-induced apoptosis in cultured endothelial cells, 459
Endovascular therapy
Endovascular occlusion of a carotid pseudoaneurysm complicating deep neck space infection in a child. Case report, 510
Gross and microscopic histopathological findings in aneurysms of the human brain treated with Guglielmi detachable coils, 284
Percutaneous transluminal angioplasty for intracranial atherosclerotic lesions: evolution of technique and short-term results, 415
Serial angiography and endovascular treatment of dissecting aneurysms of the anterior cerebral and vertebral arteries. Case report, 682
Epidermoid cyst
Epidermoid cyst arising in the occipital lobe. Case illustration, 711
Pineal epidermoid cysts: diagnosis and management, 370
Epidural hematoma
Efficacy of dural tenting sutures, 180
Epilepsy
Cerebral microdialysis combined with single-neuron and electroencephalographic recording in neurosurgical patients. Technical note, 697
Clinical relevance of amygdala sclerosis in temporal lobe epilepsy, 59
Presurgical motor and somatosensory cortex mapping with functional magnetic resonance imaging and positron emission tomography, 915
Valproate therapy for prevention of posttraumatic seizures: a randomized trial, 593
Epilepsy surgery
Localization of language-specific cortex by using magnetic source imaging and electrical stimulation mapping, 787
Evoked potential
Somatosensory evoked potentials in severe traumatic brain injury: a blinded study, 577
Excitatory amino acids
Failure of the competitive *N*-methyl-D-aspartate antagonist Selfotel (CGS 19755) in the treatment of severe head injury: results of two Phase III clinical trials, 737

Index

Facial nerve
Hypoglossal-facial nerve side-to-end "anastomosis." Letters, 163, 164
Surgical anatomy for direct hypoglossal–facial nerve side-to-end anastomosis, 268
Facial pain
Temporal glioblastoma causing trigeminal neuralgia. Case illustration, 515
Facial reanimation
Hypoglossal–facial nerve side-to-end anastomosis. Letters, 163, 164
Falx celebri
Falcotentorial plasmacytoma. Case report, 132
Familial aneurysm
Family history of subarachnoid hemorrhage and the incidence of asymptomatic, unruptured cerebral aneurysms, 391
Fenestration
Anomalous internal carotid artery in a patient with pituitary adenoma. Case illustration, 710
Fluid-percussion injury
Exacerbation of cortical and hippocampal CA1 damage due to posttraumatic hypoxia following moderate fluid-percussion brain injury in rats, 653
Foramen of Luschka
Topographic anatomy of the cochlear nuclear region at the floor of the fourth ventricle in humans, 466
Fourth ventricle
Central neurocytoma of the fourth ventricle. Case report, 506
Topographic anatomy of the cochlear nuclear region at the floor of the fourth ventricle in humans, 466
Frameless stereotaxy
Frameless stereotaxy with scalp-applied fiducial markers for brain biopsy procedures: experience in 218 cases, 569
Functional brain mapping
Functional brain mapping using positron emission tomography scanning in preoperative neurosurgical planning for pediatric brain tumors, 797
Functional imaging
Functional positron emission tomography. Letters, 166, 167
Functional localization
Functional neuronavigation with magnetoencephalography: outcome in 50 patients with lesions around the motor cortex, 73
Functional magnetic resonance imaging
Comparative localization of auditory comprehension by using functional magnetic resonance imaging and cortical stimulation, 626
Intraoperative validation of functional magnetic resonance imaging and cortical reorganization patterns in patients with brain tumors involving the primary motor cortex, 238
Presurgical motor and somatosensory cortex mapping with functional magnetic resonance imaging and positron emission tomography, 915
Fusiform aneurysm
Fusiform vertebral artery aneurysms as a cause of dissecting aneurysms. Report of two autopsy cases and a review of the literature, 139
Fusion
Is fusion necessary? Letters, 353, 354

Gangliocytoma
Gangliocytoma masquerading as a prolactinoma. Case report, 490
Gene therapy
Enhanced radiosensitivity of malignant glioma cells after adenoviral p53 transduction, 997
Inhibition of *NF2*-negative and *NF2*-positive primary human meningioma cell proliferation by overexpression of merlin due to vector-mediated gene transfer, 85
Overexpression of ***bax*** in human glioma cell lines, 483
Glioblastoma multiforme
Accelerated fractionated proton/photon irradiation to 90 cobalt gray equivalent for glioblastoma multiforme: results of a phase II prospective trial, 251
Enhanced radiosensitivity of malignant glioma cells after adenoviral p53 transduction, 997
Glioblastoma multiforme at the site of metal splinter injury: a coincidence? Case report, 1041
Temporal glioblastoma causing trigeminal neuralgia. Case illustration, 515
Glioma
Apoptotic elimination of peripheral T lymphocytes in patients with primary intracranial tumors, 935
Cell cycle arrest and astrocytic differentiation resulting from *PTEN* expression in glioma cells, 822
Effects of N-6 essential fatty acids on glioma invasion and growth: experimental studies with glioma spheroids in collagen gels, 989
Gliomas in rodent whisker barrel cortex: a new tumor model, 814
Histiocytic lesion mimicking intrinsic brainstem neoplasm. Case report, 1037
Immunohistochemical staining of DNA topoisomerase IIα in human gliomas, 477
Neuroendoscopic approach to tectal tumors: a consecutive series, 964
Glutamate
Influence of rewarming conditions after hypothermia in gerbils with transient forebrain ischemia, 114
Glutamate receptor antagonists
Failure of the competitive *N*-methyl-D-aspartate antagonist Selfotel (CGS 19755) in the treatment of severe head injury: results of two Phase III clinical trials, 737
Graft
En bloc resection of an intracavernous oculomotor nerve schwannoma and grafting of the oculomotor nerve with sural nerve. Case report and review of the literature, 1045
Postoperative swelling of pericranial pedicle graft producing intracranial mass effect. Report of two cases, 124
Vascularized pedicle graft. Letters, 1065
Growth factor
Expression of angiogenic growth factors in dural arteriovenous fistula, 781
Expression of vascular permeability factor in craniopharyngioma, 831
Growth hormone
Growth hormone receptor expression and function in meningiomas: effect of a specific receptor antagonist, 93
Guglielmi detachable coils
Gross and microscopic histopathological findings in aneurysms of the human brain treated with Guglielmi detachable coils, 284

Hamartoma
Fourth–third nerve communication. Letter, 721
Head injury
Brain tissue oxygenation. Letters, 1065, 1066
Brainstem lesions after head injury. Letters, 523, 524
Fatal secondary increase in serum S-100B protein after severe head injury. Report of three cases, 875
Hemodynamic characterization of intracranial pressure plateau waves in head-injured patients, 11
Increased incidence and impact of nonconvulsive and convulsive seizures after traumatic brain injury as detected by continuous electroencephalographic monitoring, 750
Increased inspired oxygen concentration as a factor in improved brain tissue oxygenation and tissue lactate levels after severe human head injury, 1
Little benefit from mild hypothermia therapy for severely head injured patients with low intracranial pressure, 185
Prognostic value of early computerized tomography scanning following craniotomy for traumatic hematoma, 581
Side effects and mortality associated with use of phenytoin for early posttraumatic seizure prophylaxis, 588
Headache
Sagittal sinus occlusion by intraluminal dural cysts. Report of two cases, 867
Hemangioblastoma
An intracranial aneurysm on the feeding artery of a cerebellar hemangioblastoma. Case report, 136
Intratumoral ethanol injection. Letters, 521, 522
Hemangiopericytoma
Intraventricular hemangiopericytoma. Letters, 167
Hemodynamics
Early alterations in cerebral hemodynamics, brain metabolism, and blood-brain barrier permeability in experimental intracerebral hemorrhage, 1013
The impact of raised intracranial pressure on cerebral venous hemody-

Hemodynamics (*continued*)
namics: a prospective venous transcranial Doppler ultrasonography study, 744
Hemorrhage
Meningioma recurrence at a different site masquerading as a subdural hematoma. Case report, 496
Hemostasis
Efficacy of dural tenting sutures, 180
Hippocampus
Hippocampal ischemia in a patient who experienced transient global amnesia after undergoing cerebral angiography. Case illustration, 347
Histiocytosis
Histiocytic lesion mimicking intrinsic brainstem neoplasm. Case report, 1037
Histopathology
Correlation between histopathological findings in C-5 and C-6 nerve stumps and motor recovery following nerve grafting for repair of brachial plexus injury, 636
Hydrocephalus
Cerebral metabolism in experimental hydrocephalus: an in vivo ^{1}H and ^{31}P magnetic resonance spectroscopy study, 660
Characterization of a model of hydrocephalus in transgenic mice, 978
Empty sella syndrome: does it exist in children?, 960
Endosaccular aneurysm occlusion with Guglielmi detachable coils for obstructive hydrocephalus caused by a large basilar tip aneurysm. Case report, 675
Endoscopic removal of cysticercal cysts within the fourth ventricle. Technical note, 340
Expanding lacunae causing triventricular hydrocephalus. Report of two cases, 669
Experience with a programmable valve shunt system, 26
Human arachnoid villi response to subarachnoid hemorrhage: possible relationship to chronic hydrocephalus, 80
Intratumoral ethanol injection. Letters, 521, 522
Low incidence of delayed intracerebral hemorrhage secondary to ventriculoperitoneal shunt insertion, 32
Neuroendoscopic approach to tectal tumors: a consecutive series, 964
A positron emission tomography study of cerebrovascular reserve before and after shunt surgery in patients with idiopathic chronic hydrocephalus, 605
Ventricular volume following third ventriculostomy, 20
Hyperplasia
Antisense oligonucleotide–induced inhibition of adrenocorticotropic hormone release from cultured human corticotrophs, 261
Recurrent intracranial Masson's vegetant intravascular hemangioendothelioma. Case report and review of the literature, 308
Hyperventilation
High jugular bulb oxygen saturation. Letters, 167, 169
Hypoglossal nerve
Hypoglossal–facial nerve side-to-end anastomosis. Letters, 163, 164
Initial report on the limited value of hypoglossal nerve transfer to treat brachial plexus root avulsions, 601
Surgical anatomy for direct hypoglossal–facial nerve side-to-end "anastomosis," 268
Hyponatremia
Improved efficiency of hypervolemic therapy with inhibition of natriuresis by fludrocortisone in patients with aneurysmal subarachnoid hemorrhage, 947
Hypothalamic hamartoma
The relationship between magnetic resonance imaging findings and clinical manifestations of hypothalamic hamartoma, 212
Stereotactic radiofrequency ablation for the treatment of gelastic seizures associated with hypothalamic hamartoma. Case report, 881
Hypothermia
Influence of rewarming conditions after hypothermia in gerbils with transient forebrain ischemia, 114
Little benefit from mild hypothermia therapy for severely head injured patients with low intracranial pressure, 185
Hypoxia
Exacerbation of cortical and hippocampal CA1 damage due to posttrauma-
Hypoxia (*continued*)
tic hypoxia following moderate fluid-percussion brain injury in rats, 653

Immunohistochemistry
Immunohistochemical staining of DNA topoisomerase IIα in human gliomas, 477
Immunosuppression
Immunosuppression for neural xenografts: a comparison of cyclosporin and anti-CD25 monoclonal antibody, 109
Implantable pump
Treatment of cerebral origin spasticity with continuous intrathecal baclofen delivered via an implantable pump: long-term follow-up review of 18 patients, 733
Insulin-like growth factor I
Growth hormone receptor expression and function in meningiomas: effect of a specific receptor antagonist, 93
Internal carotid artery
Anomalous internal carotid artery in a patient with pituitary adenoma. Case illustration, 710
Blisterlike aneurysms. Letters, 164, 166
Efficacy and current limitations of intravascular stents for intracranial internal carotid, vertebral, and basilar artery aneurysms, 538
Ruptured cerebral pseudoaneurysm caused by the removal of a ventricular catheter. Case report, 1031
Intracerebral hemorrhage
Beating aneurysm sign: angiographic evidence of ruptured aneurysm tamponade by intracranial hemorrhage. Case illustration, 517
Early alterations in cerebral hemodynamics, brain metabolism, and blood-brain barrier permeability in experimental intracerebral hemorrhage, 1013
Low incidence of delayed intracerebral hemorrhage secondary to ventriculoperitoneal shunt insertion, 32
Three-dimensional computerized tomography angiography in patients with hyperacute intracerebral hemorrhage, 424
Intracranial aneurysm
Efficacy and current limitations of intravascular stents for intracranial internal carotid, vertebral, and basilar artery aneurysms, 538
Intracranial hematoma
Prognostic value of early computerized tomography scanning following craniotomy for traumatic hematoma, 581
Intracranial pressure
Empty sella syndrome: does it exist in children?, 960
Hemodynamic characterization of intracranial pressure plateau waves in head-injured patients, 11
The impact of raised intracranial pressure on cerebral venous hemodynamics: a prospective venous transcranial Doppler ultrasonography study, 744
Little benefit from mild hypothermia therapy for severely head injured patients with low intracranial pressure, 185
Magnetic resonance imaging compatibility testing of intracranial pressure probes. Technical note, 706
Prognostic value of early computerized tomography scanning following craniotomy for traumatic hematoma, 581
Ventricular pressure monitoring during bilateral decompression with dura expansion, 953
Intracranial stent
Efficacy and current limitations of intravascular stents for intracranial internal carotid, vertebral, and basilar artery aneurysms, 538
Intracranial volume
Intracranial volume change in childhood, 610
Intracranial volume change in craniosynostosis, 617
Intrathecal drug infusion
Treatment of cerebral origin spasticity with continuous intrathecal baclofen delivered via an implantable pump: long-term follow-up review of 18 patients, 733
Intraventricular hemorrhage
Results of early surgical evacuation of packed intraventricular hemorrhage from aneurysmal rupture in patients with poor-grade subarachnoid hemorrhage, 408
Intraventricular tumor
Osteoblastic meningioma of the lateral ventricle. Case illustration, 1058
Ischemia
Influence of rewarming conditions after hypothermia in gerbils with transient forebrain ischemia, 114

Index

Lactate
Brain tissue oxygenation. Letters, 1065, 1066
Increased inspired oxygen concentration as a factor in improved brain tissue oxygenation and tissue lactate levels after severe human head injury, 1
Influence of rewarming conditions after hypothermia in gerbils with transient forebrain ischemia, 114
Leukemia
Hemorrhagic colloid cyst in a patient with leukemia. Case illustration, 516
Lumboperitoneal shunt
Dural sinus thrombosis and pseudotumor cerebri: unexpected complications of suboccipital craniotomy and translabyrinthine craniectomy, 192
Lymphoma
Rapid infusion of high-dose methotrexate resulting in enhanced penetration into cerebrospinal fluid and intensified tumor response in primary central nervous system lymphomas, 221

Magnetic resonance
Noninvasive evaluation of the malignant potential of intracranial meningiomas performed using proton magnetic resonance spectroscopy, 928
Magnetic resonance angiography
Detailed magnetic resonance imaging anatomy of the cisternal segment of the abducent nerve: Dorello's canal and neurovascular relationships and landmarks, 276
Magnetic resonance imaging
Cerebral metabolism in experimental hydrocephalus: an in vivo ^{1}H and ^{31}P magnetic resonance spectroscopy study, 660
Characterization of a model of hydrocephalus in transgenic mice, 978
Congenital intraorbital optic nerve cyst. Case report, 325
Correlation of the relationships of brain–tumor interfaces, magnetic resonance imaging, and angiographic findings to predict cleavage of meningiomas, 384
Detailed magnetic resonance imaging anatomy of the cisternal segment of the abducent nerve: Dorello's canal and neurovascular relationships and landmarks, 276
Expanding lacunae causing triventricular hydrocephalus. Report of two cases, 669
Gliomas in rodent whisker barrel cortex: a new tumor model, 814
Growing blood clot mimicking an aneurysm on postoperative computerized tomography and magnetic resonance imaging studies. Case report and review of the literature, 679
Hippocampal ischemia in a patient who experienced transient global amnesia after undergoing cerebral angiography. Case illustration, 347
Infectious meningitis mimicking recurrent medulloblastoma on magnetic resonance imaging. Case report, 499
Intracranial volume change in craniosynostosis, 617
Localization of hand motor activation in Broca's *pli de passage moyen*, 903
Magnetic quantification. Letters, 716, 718
Magnetic resonance imaging compatibility testing of intracranial pressure probes. Technical note, 706
A mobile high-field magnetic resonance system for neurosurgery, 804
Pineal epidermoid cysts: diagnosis and management, 370
Rosai–Dorfman disease presenting multiple intracranial lesions with unique findings on magnetic resonance imaging. Case report, 335
Magnetic resonance spectroscopy
Central neurocytoma of the fourth ventricle. Case report, 506
Cerebral metabolism in experimental hydrocephalus: an in vivo ^{1}H and ^{31}P magnetic resonance spectroscopy study, 660
Expanding lacunae causing triventricular hydrocephalus. Report of two cases, 669
Magnetoencephalography
Functional neuronavigation with magnetoencephalography: outcome in 50 patients with lesions around the motor cortex, 73
Localization of language-specific cortex by using magnetic source imaging and electrical stimulation mapping, 787
Malignancy
Noninvasive evaluation of the malignant potential of intracranial meningiomas performed using proton magnetic resonance spectroscopy, 928
Median nerve
The anatomy of the Berrettini branch: implications for carpal tunnel release, 1027
Medical ethics
Is the age of heroes gone? The 1999 presidential address, 531
Medulloblastoma
Medulloblastoma with extensive nodularity: a variant with favorable prognosis, 971
Memory
Cerebral microdialysis combined with single-neuron and electroencephalographic recording in neurosurgical patients. Technical note, 697
Meningeal artery
Middle meningeal artery aneurysm. Case illustration, 518
Meningioma
Correlation of the relationships of brain–tumor interfaces, magnetic resonance imaging, and angiographic findings to predict cleavage of meningiomas, 384
Expression of the JAK and STAT superfamilies in human meningiomas, 440
Growth hormone receptor expression and function in meningiomas: effect of a specific receptor antagonist, 93
Long-term outcomes after meningioma radiosurgery: physician and patient perspectives, 44
Meningioma recurrence at a different site masquerading as a subdural hematoma. Case report, 496
Noninvasive evaluation of the malignant potential of intracranial meningiomas performed using proton magnetic resonance spectroscopy, 928
Osteoblastic meningioma of the lateral ventricle. Case illustration, 1058
Outcome after complex neurosurgery: the caregiver's burden is forgotten, 359
Predicting the probability of meningioma recurrence based on the quantity of peritumoral brain edema on computerized tomography scanning, 375
Recurrent meningiomas. Letters, 720, 721
Rosai–Dorfman disease presenting multiple intracranial lesions with unique findings on magnetic resonance imaging. Case report, 335
Ruptured anterior communicating artery aneurysm encased in a tuberculum sellae meningioma. Case report, 871
Meningitis
Infectious meningitis mimicking recurrent medulloblastoma on magnetic resonance imaging. Case report, 499
Meningocele
Suboccipital meningocele presenting as a huge retropharyngeal mass in a patient with neurofibromatosis Type 1. Case report, 503
Metabolism
Early alterations in cerebral hemodynamics, brain metabolism, and blood-brain barrier permeability in experimental intracerebral hemorrhage, 1013
Metastasis
Central nervous system metastasis from gallbladder carcinoma mimicking a meningioma. Case illustration, 1059
Stereotactic radiosurgery for brainstem metastases, 563
Surgery and radiotherapy compared with gamma knife radiosurgery in the treatment of solitary single cerebral metastases of small diameter, 35
Methotrexate
Rapid infusion of high-dose methotrexate resulting in enhanced penetration into cerebrospinal fluid and intensified tumor response in primary central nervous system lymphomas, 221
Microdialysis
Cerebral microdialysis combined with single-neuron and electroencephalographic recording in neurosurgical patients. Technical note, 697
Intracerebral microdialysis. Letters, 722, 723
Microsurgery
Application of a rigid endoscope to the microsurgical management of 54 cerebral aneurysms: results in 48 patients, 231
Long-term outcomes after meningioma radiosurgery: physician and patient perspectives, 44
Microsurgical anatomy of the extracranial–extradural origin of the posterior inferior cerebellar artery, 645
Microvascular decompression
Microvascular decompression. Letters, 349, 350, 1063, 1064

Midbrain
Posteroventral pallidotomy for midbrain tremor after a pontine hemorrhage. Case report, 885
Motor cortex
Identification of motor pathways during tumor surgery facilitated by multichannel electromyographic recording, 922
Intraoperative validation of functional magnetic resonance imaging and cortical reorganization patterns in patients with brain tumors involving the primary motor cortex, 238
Muscle
Partial myotomy/myectomy of the trapezius muscle with an asleep-awake-asleep anesthetic technique for treatment of cervical dystonia. Technical note, 889

Neoplasm
Recurrent intracranial Masson's vegetant intravascular hemangioendothelioma. Case report and review of the literature, 308
Nerve communication
Fourth–third nerve communication. Letter, 721
Nerve graft
Correlation between histopathological findings in C-5 and C-6 nerve stumps and motor recovery following nerve grafting for repair of brachial plexus injury, 636
Nerve growth factor
Intraventricular infusion of nerve growth factor as the cause of sympathetic fiber sprouting in sensory ganglia, 447
Nerve root
Microvascular decompression. Letters, 349, 350, 1063, 1064
Neural transplantation
Immunosuppression for neural xenografts: a comparison of cyclosporin and anti-CD25 monoclonal antibody, 109
Neurinoma
Greater superficial petrosal nerve neurinoma. Case report, 691
Neuroblastoma
Medulloblastoma with extensive nodularity: a variant with favorable prognosis, 971
Neurocytoma
Central neurocytoma of the fourth ventricle. Case report, 506
Neuroectodermal tumor
Medulloblastoma with extensive nodularity: a variant with favorable prognosis, 971
Neurofibromatosis Type 2
Inhibition of *NF2*-negative and *NF2*-positive primary human meningioma cell proliferation by overexpression of merlin due to vector-mediated gene transfer, 85
Radiosurgery in NF2. Letters, 714
Suboccipital meningocele presenting as a huge retropharyngeal mass in a patient with neurofibromatosis Type 1. Case report, 503
Neurofilament
Gangliocytoma masquerading as a prolactinoma. Case report, 490
Neurophysiology
Elucidating the pathophysiology of syringomyelia, 553
Neuropsychometrics
Cognition following subarachnoid hemorrhage from anterior communicating artery aneurysms: relation to timing of surgery, 402
Neurosurgery
A mobile high-field magnetic resonance system for neurosurgery, 804
Neurosurgical history
Is the age of heroes gone? The 1999 presidential address, 531
Neurovascular decompression
Microvascular decompression. Letters, 349, 350, 1063, 1064
Nimodipine
Nimodipine in subarachnoid hemorrhage. Letters, 520
N-methyl-D-aspartate (NMDA)
Failure of the competitive *N*-methyl-D-aspartate antagonist Selfotel (CGS 19755) in the treatment of severe head injury: results of two Phase III clinical trials, 737

Occipital lobe
Epidermoid cyst arising in the occipital lobe. Case illustration, 711
Oculomotor nerve
En bloc resection of an intracavernous oculomotor nerve schwannoma and grafting of the oculomotor nerve with sural nerve. Case report and review of the literature, 1045
Intraoperative electrooculographic monitoring of oculomotor nerve function during skull base surgery. Technical note, 157
Operative approach
Trigeminal neurinomas extending into multiple fossae: surgical methods and review of the literature, 202
Optic nerve cyst
Congenital intraorbital optic nerve cyst. Case report, 325
Optic neuropathy
Sylvian aqueduct syndrome. Letters, 169, 170
Orb
Quantification of increased exposure resulting from orbital rim and orbitozygomatic osteotomy via the frontotemporal transsylvian approach, 1020
Orbital tumor
Intraosseous orbitosphenoidal cavernous angioma. Case report, 1034
Outcome
Outcome after complex neurosurgery: the caregiver's burden is forgotten, 359
Prognostic value of early computerized tomography scanning following craniotomy for traumatic hematoma, 581
Results of early surgical evacuation of packed intraventricular hemorrhage from aneurysmal rupture in patients with poor-grade subarachnoid hemorrhage, 408
Somatosensory evoked potentials in severe traumatic brain injury: a blinded study, 577
Oxygen saturation
High jugular bulb oxygen saturation. Letters, 167, 169
Oxyhemoglobin
Oxyhemoglobin-induced apoptosis in cultured endothelial cells, 459

Pain
Intraventricular infusion of nerve growth factor as the cause of sympathetic fiber sprouting in sensory ganglia, 447
Resolution of central pain. Letters, 715, 716
Unilateral pallidotomy for reduction of parkinsonian pain, 198
Pallidotomy
Bilateral simultaneous posteroventral pallidotomy for the treatment of Parkinson's disease: neuropsychological and neurological side effects. Report of four cases and review of the literature, 313
Posteroventral pallidotomy for midbrain tremor after a pontine hemorrhage. Case report, 885
Unilateral pallidotomy for reduction of parkinsonian pain, 198
Parkinson's disease
Bilateral simultaneous posteroventral pallidotomy for the treatment of Parkinson's disease: neuropsychological and neurological side effects. Report of four cases and review of the literature, 313
Convection-enhanced selective excitotoxic ablation of the neurons of the globus pallidus internus for treatment of parkinsonism in nonhuman primates, 294
Thalamic deep brain stimulation for the treatment of head, voice, and bilateral limb tremor, 68
Unilateral pallidotomy for reduction of parkinsonian pain, 198
Pediatric brain neoplasm
Functional brain mapping using positron emission tomography scanning in preoperative neurosurgical planning for pediatric brain tumors, 797
Pedicle screw
Spinal instability. Letters, 719
Perforating artery
Computer-generated microsurgical anatomy of the basilar artery bifurcation. Technical note, 145
Peripheral nerve
Recovery of cutaneous pain sensitivity after end-to-side nerve repair in the rat, 857
Peritumoral edema
Predicting the probability of meningioma recurrence based on the quantity of peritumoral brain edema on computerized tomography scanning, 375
Phantom limb pain
Painful supernumerary phantom arm following motor cortex stimulation for central poststroke pain. Case report, 121

Index

Phenytoin
Side effects and mortality associated with use of phenytoin for early posttraumatic seizure prophylaxis, 588
Valproate therapy for prevention of posttraumatic seizures: a randomized trial, 593
Pineal gland
Idiopathic pinealitis. Case report, 330
Pineal region
Pineal epidermoid cysts: diagnosis and management, 370
Pituitary adenoma
Anomalous internal carotid artery in a patient with pituitary adenoma. Case illustration, 710
Plasma cell granuloma
Falcotentorial plasmacytoma. Case report, 132
Plasmacytoma
Falcotentorial plasmacytoma. Case report, 132
Plateau wave
Hemodynamic characterization of intracranial pressure plateau waves in head-injured patients, 11
Pneumocephalus
Iatrogenic pneumocephalus secondary to intravenous catheterization. Case report, 878
Pontine
Posteroventral pallidotomy for midbrain tremor after a pontine hemorrhage. Case report, 885
Positron emission tomography
Functional brain mapping using positron emission tomography scanning in preoperative neurosurgical planning for pediatric brain tumors, 797
Functional positron emission tomography. Letters, 166, 167
Localization of hand motor activation in Broca's *pli de passage moyen*, 903
A positron emission tomography study of cerebrovascular reserve before and after shunt surgery in patients with idiopathic chronic hydrocephalus, 605
Presurgical motor and somatosensory cortex mapping with functional magnetic resonance imaging and positron emission tomography, 915
Posterior cerebral artery
Quantitative assessment of vessel flow integrity for aneurysm surgery. Technical note, 1050
Posterior inferior cerebellar artery
Microsurgical anatomy of the extracranial–extradural origin of the posterior inferior cerebellar artery, 645
Postoperative complication
Low incidence of delayed intracerebral hemorrhage secondary to ventriculoperitoneal shunt insertion, 32
Pregnancy
Rapid enlargement and recurrence of a preexisting intrasellar craniopharyngioma during the course of two pregnancies. Case report, 322
Presidential address
Is the age of heroes gone? The 1999 presidential address, 531
Primates
Skull bone regeneration in primates in response to basic fibroblast growth factor, 851
Prognosis
Immunohistochemical staining of DNA topoisomerase IIα in human gliomas, 477
Prolactinoma
Gangliocytoma masquerading as a prolactinoma. Case report, 490
Proliferative index
Immunohistochemical staining of DNA topoisomerase IIα in human gliomas, 477
Propionibacterium acnes
Glioblastoma multiforme at the site of metal splinter injury: a coincidence? Case report, 1041
Prostaglandin
Induction of cyclooxygenase-2 messenger RNA after transient and permanent middle cerebral artery occlusion in rats: comparison with c-fos messenger RNA by using in situ hybridization, 1005
Protein
Expression of the JAK and STAT superfamilies in human meningiomas, 440
Proton
Accelerated fractionated proton/photon irradiation to 90 cobalt gray equivalent for glioblastoma multiforme: results of a phase II prospective trial, 251
Proton radiation therapy for chordomas and chondrosarcomas of the skull base, 432
Pseudoaneurysm
Endovascular occlusion of a carotid pseudoaneurysm complicating deep neck space infection in a child. Case report, 510
Ruptured cerebral pseudoaneurysm caused by the removal of a ventricular catheter. Case report, 1031
Pseudotumor cerebri
Dural sinus thrombosis and pseudotumor cerebri: unexpected complications of suboccipital craniotomy and translabyrinthine craniectomy, 192
PTEN gene
Cell cycle arrest and astrocytic differentiation resulting from *PTEN* expression in glioma cells, 822

Quantitative anatomical study
Quantification of increased exposure resulting from orbital rim and orbitozygomatic osteotomy via the frontotemporal transsylvian approach, 1020

Radiation therapy
Long-term outcomes after meningioma radiosurgery: physician and patient perspectives, 44
Proton radiation therapy for chordomas and chondrosarcomas of the skull base, 432
Radiography
Elucidating the pathophysiology of syringomyelia, 553
Radiosurgery
Arteriovenous fistula with associated aneurysms coexisting with dural arteriovenous malformation of the anterior inferior falx. Case report and review of the literature, 303
Long-term outcomes after meningioma radiosurgery: physician and patient perspectives, 44
Proliferation index and prophylactic radiosurgery. Letters, 898
Radiosurgery in NF2. Letters, 714
Stereotactic radiosurgery for brainstem metastases, 563
Surgery and radiotherapy compared with gamma knife radiosurgery in the treatment of solitary single cerebral metastases of small diameter, 35
Rats
Exacerbation of cortical and hippocampal CA1 damage due to posttraumatic hypoxia following moderate fluid-percussion brain injury in rats, 653
Reconstructive surgery
Size-adjustable titanium plate for reconstruction of the sella turcica. Technical note, 1055
Rhizotomy
Changes in ankle spasticity and strength following selective dorsal rhizotomy and physical therapy for spastic cerebral palsy, 727
Rhomboid fossa
Pericollicular approaches to the rhomboid fossa. Part II. Neurophysiological basis, 768

S-100 protein
Fatal secondary increase in serum S-100B protein after severe head injury. Report of three cases, 875
Salt wasting
Improved efficiency of hypervolemic therapy with inhibition of natriuresis by fludrocortisone in patients with aneurysmal subarachnoid hemorrhage, 947
Scanning electron microscopy
Gross and microscopic histopathological findings in aneurysms of the human brain treated with Guglielmi detachable coils, 284
Schwannoma
En bloc resection of an intracavernous oculomotor nerve schwannoma

Schwannoma (*continued*)
and grafting of the oculomotor nerve with sural nerve. Case report and review of the literature, 1045
Multiple schwannomas. Letters, 351, 352
Trigeminal neurinomas extending into multiple fossae: surgical methods and review of the literature, 202
Seizure
Increased incidence and impact of nonconvulsive and convulsive seizures after traumatic brain injury as detected by continuous electroencephalographic monitoring, 750
Side effects and mortality associated with use of phenytoin for early posttraumatic seizure prophylaxis, 588
Stereotactic radiofrequency ablation for the treatment of gelastic seizures associated with hypothalamic hamartoma. Case report, 881
Selfotel
Failure of the competitive *N*-methyl-D-aspartate antagonist Selfotel (CGS 19755) in the treatment of severe head injury: results of two Phase III clinical trials, 737
Sella turcica
Size-adjustable titanium plate for reconstruction of the sella turcica. Technical note, 1055
Sensorimotor cortex
Presurgical motor and somatosensory cortex mapping with functional magnetic resonance imaging and positron emission tomography, 915
Severe head injury
Failure of the competitive *N*-methyl-D-aspartate antagonist Selfotel (CGS 19755) in the treatment of severe head injury: results of two Phase III clinical trials, 737
Shunt
Ruptured cerebral pseudoaneurysm caused by the removal of a ventricular catheter. Case report, 1031
Shunt failure
Sylvian aqueduct syndrome. Letters, 169, 170
Single neuron
Cerebral microdialysis combined with single-neuron and electroencephalographic recording in neurosurgical patients. Technical note, 697
Sinus histiocytosis
Rosai–Dorfman disease presenting multiple intracranial lesions with unique findings on magnetic resonance imaging. Case report, 335
Skull base
Intraoperative electrooculographic monitoring of oculomotor nerve function during skull base surgery. Technical note, 157
Intraosseous orbitosphenoidal cavernous angioma. Case report, 1034
Long-term outcomes after meningioma radiosurgery: physician and patient perspectives, 44
Quantification of increased exposure resulting from orbital rim and orbitozygomatic osteotomy via the frontotemporal transsylvian approach, 1020
Transciliary subfrontal craniotomy for anterior skull base lesions. Technical note, 892
Skull base tumor
Proton radiation therapy for chordomas and chondrosarcomas of the skull base, 432
Skull defect
Skull bone regeneration in primates in response to basic fibroblast growth factor, 851
Sleep
Cerebral microdialysis combined with single-neuron and electroencephalographic recording in neurosurgical patients. Technical note, 697
Somatosensory cortex
Gliomas in rodent whisker barrel cortex: a new tumor model, 814
Spasticity
Changes in ankle spasticity and strength following selective dorsal rhizotomy and physical therapy for spastic cerebral palsy, 727
Treatment of cerebral origin spasticity with continuous intrathecal baclofen delivered via an implantable pump: long-term follow-up review of 18 patients, 733
Spectroscopy
Noninvasive evaluation of the malignant potential of intracranial meningiomas performed using proton magnetic resonance spectroscopy, 928
Spinal instability
Spinal instability. Letter, 719
Spine
Is fusion necessary? Letters, 353, 354
Stereotaxis
A prospective comparison between three-dimensional magnetic resonance imaging and ventriculography for target-coordinate determination in frame-based functional stereotactic neurosurgery, 911
Stereotactic radiofrequency ablation for the treatment of gelastic seizures associated with hypothalamic hamartoma. Case report, 881
Use of cytological preparations for the intraoperative diagnosis of stereotactically obtained brain biopsies: a 19-year experience and survey of neuropathologists, 454
Ventricular volume following third ventriculostomy, 20
Stroke
Extracranial vertebral artery stent placement: in-hospital and follow-up results, 547
Percutaneous transluminal angioplasty for intracranial atherosclerotic lesions: evolution of technique and short-term results, 415
Subarachnoid hemorrhage
Balloon angioplasty of the A_1 segment of the anterior cerebral artery narrowed by vasospasm. Technical note, 153
Beating aneurysm sign: angiographic evidence of ruptured aneurysm tamponade by intracranial hemorrhage. Case illustration, 517
Cognition following subarachnoid hemorrhage from anterior communicating artery aneurysms: relation to timing of surgery, 402
Computerized tomography angiography in patients with subarachnoid hemorrhage: from aneurysm detection to treatment without conventional angiography, 761
Family history of subarachnoid hemorrhage and the incidence of asymptomatic, unruptured cerebral aneurysms, 391
Fusiform vertebral artery aneurysms as a cause of dissecting aneurysms. Report of two autopsy cases and a review of the literature, 139
Improved efficiency of hypervolemic therapy with inhibition of natriuresis by fludrocortisone in patients with aneurysmal subarachnoid hemorrhage, 947
Induction of heat shock protein 70 in the rat brain following intracisternal infusion of autologous blood: evaluation of acute neuronal damage, 843
Long-term effects of in vivo angioplasty in normal and vasospastic canine carotid arteries: pharmacological and morphological analyses, 100
Nimodipine in subarachnoid hemorrhage. Letters, 520
The prophylactic use of transluminal balloon angioplasty in patients with Fisher Grade 3 subarachnoid hemorrhage: a pilot study, 51
Results of early surgical evacuation of packed intraventricular hemorrhage from aneurysmal rupture in patients with poor-grade subarachnoid hemorrhage, 408
Ruptured anterior communicating artery aneurysm encased in a tuberculum sellae meningioma. Case report, 871
Subdural hematoma
Meningioma recurrence at a different site masquerading as a subdural hematoma. Case report, 496
Superior cerebellar artery
Quantitative assessment of vessel flow integrity for aneurysm surgery. Technical note, 1050
Supracerebellar approach
Pineal epidermoid cysts: diagnosis and management, 370
Surgically created nerve communication
Recovery of cutaneous pain sensitivity after end-to-side nerve repair in the rat, 857
Sylvian aqueduct
Sylvian aqueduct syndrome. Letters, 169, 170
Syncope
Sagittal sinus occlusion by intraluminal dural cysts. Report of two cases, 867
Syringomyelia
Elucidating the pathophysiology of syringomyelia, 553

T lymphocytes
Apoptotic elimination of peripheral T lymphocytes in patients with primary intracranial tumors, 935
Tectal tumor
Neuroendoscopic approach to tectal tumors: a consecutive series, 964
Temporal lobe seizure
Clinical relevance of amygdala sclerosis in temporal lobe epilepsy, 59

Index

Tentorium
Falcotentorial plasmacytoma. Case report, 132
Thalamotomy
Thalamic deep brain stimulation for the treatment of head, voice, and bilateral limb tremor, 68
Third ventricle
Hemorrhagic colloid cyst in a patient with leukemia. Case illustration, 516
Intraventricular hemangiopericytoma. Letters, 167
Three-dimensional magnetic resonance imaging
A prospective comparison between three-dimensional magnetic resonance imaging and ventriculography for target-coordinate determination in frame-based functional stereotactic neurosurgery, 911
Three-dimensional reconstruction
Computer-generated microsurgical anatomy of the basilar artery bifurcation. Technical note, 145
Thrombocytopenia
Hemorrhagic colloid cyst in a patient with leukemia. Case illustration, 516
Thrombolysis
Dural sinus thrombosis and pseudotumor cerebri: unexpected complications of suboccipital craniotomy and translabyrinthine craniectomy, 192
Torticollis
Partial myotomy/myectomy of the trapezius muscle with an asleep-awake-asleep anesthetic technique for treatment of cervical dystonia. Technical note, 889
Transpetrosal approach
Outcome after complex neurosurgery: the caregiver's burden is forgotten, 359
Transsphenoidal surgery
Complications in a contemporary series of patients who underwent transsphenoidal surgery for Cushing's disease, 175
Size-adjustable titanium plate for reconstruction of the sella turcica. Technical note, 1055
Transtentorial approach
Pineal epidermoid cysts: diagnosis and management, 370
Transverse sinus thrombosis
Dural sinus thrombosis and pseudotumor cerebri: unexpected complications of suboccipital craniotomy and translabyrinthine craniectomy, 192
Trauma
Glioblastoma multiforme at the site of metal splinter injury: a coincidence? Case report, 1041
Tremor
Thalamic deep brain stimulation for the treatment of head, voice, and bilateral limb tremor, 68
Trigeminal nerve
Microvascular decompression. Letters, 349, 350, 1063, 1064
Trigeminal neuralgia
Temporal glioblastoma causing trigeminal neuralgia. Case illustration, 515
Trigeminal neurinoma
Trigeminal neurinomas extending into multiple fossae: surgical methods and review of the literature, 202
Tuberculum sellae
Ruptured anterior communicating artery aneurysm encased in a tuberculum sellae meningioma. Case report, 871
Tumor
Empty sella syndrome: does it exist in children?, 960
Infectious meningitis mimicking recurrent medulloblastoma on magnetic resonance imaging. Case report, 499
Involution of enhancing intrinsic tectal tumors after endoscopic third ventriculostomy. Report of two cases, 863
Multiple schwannomas. Letters, 351, 352
Presurgical motor and somatosensory cortex mapping with functional magnetic resonance imaging and positron emission tomography, 915
Proliferation index and prophylactic radiosurgery. Letters, 898
Rapid enlargement and recurrence of a preexisting intrasellar craniopharyngioma during the course of two pregnancies. Case report, 322
Recurrent meningiomas. Letters, 720, 721
Tumor recurrence
Predicting the probability of meningioma recurrence based on the quantity of peritumoral brain edema on computerized tomography scanning, 375
Tumor suppressor gene
Cell cycle arrest and astrocytic differentiation resulting from *PTEN* expression in glioma cells, 822

Ulnar nerve
The anatomy of the Berrettini branch: implications for carpal tunnel release, 1027
Ultrasound
The impact of raised intracranial pressure on cerebral venous hemodynamics: a prospective venous transcranial Doppler ultrasonography study, 744

Vascular permeability
Expression of vascular permeability factor in craniopharyngioma, 831
Vascular tumor
Recurrent intracranial Masson's vegetant intravascular hemangioendothelioma. Case report and review of the literature, 308
Vasospasm
Balloon angioplasty of the A_1 segment of the anterior cerebral artery narrowed by vasospasm. Technical note, 153
Oxyhemoglobin-induced apoptosis in cultured endothelial cells, 459
Venography
Dural sinus thrombosis and pseudotumor cerebri: unexpected complications of suboccipital craniotomy and translabyrinthine craniectomy, 192
Venous sinus
Sagittal sinus occlusion by intraluminal dural cysts. Report of two cases, 867
Ventricular catheter
Low incidence of delayed intracerebral hemorrhage secondary to ventriculoperitoneal shunt insertion, 32
Ruptured cerebral pseudoaneurysm caused by the removal of a ventricular catheter. Case report, 1031
Ventriculocystocisternostomy
Endoscopy for cysts. Letters, 1067, 1068
Ventriculography
A prospective comparison between three-dimensional magnetic resonance imaging and ventriculography for target-coordinate determination in frame-based functional stereotactic neurosurgery, 911
Ventriculomegaly
Human arachnoid villi response to subarachnoid hemorrhage: possible relationship to chronic hydrocephalus, 80
Ventriculoperitoneal shunt
Experience with a programmable valve shunt system, 26
Low incidence of delayed intracerebral hemorrhage secondary to ventriculoperitoneal shunt insertion, 32
Ventriculostomy
Involution of enhancing intrinsic tectal tumors after endoscopic third ventriculostomy. Report of two cases, 863
Ventricular volume following third ventriculostomy, 20
Vertebral artery
Efficacy and current limitations of intravascular stents for intracranial internal carotid, vertebral, and basilar artery aneurysms, 538
Extracranial vertebral artery stent placement: in-hospital and follow-up results, 547
Fusiform vertebral artery aneurysms as a cause of dissecting aneurysms. Report of two autopsy cases and a review of the literature, 139
Microsurgical anatomy of the extracranial–extradural origin of the posterior inferior cerebellar artery, 645
Vertebrobasilar insufficiency
Extracranial vertebral artery stent placement: in-hospital and follow-up results, 547

Xenograft
Immunosuppression for neural xenografts: a comparison of cyclosporin and anti-CD25 monoclonal antibody, 109

Zygomatic approach
Quantification of increased exposure resulting from orbital rim and orbitozygomatic osteotomy via the frontotemporal transsylvian approach, 1020

Journal of Neurosurgery: Spine

July 1999, Volume 91, Number 1

CLINICAL ARTICLES:

An evidence-based review of decompressive surgery in acute spinal cord injury: rationale, indications, and timing based on experimental and clinical studies. MICHAEL G. FEHLINGS AND CHARLES H. TATOR 1

Current use and timing of spinal surgery for management of acute spinal cord injury in North America: results of a retrospective multicenter study. CHARLES H. TATOR, MICHAEL G. FEHLINGS, KEVIN THORPE, AND WAYNE TAYLOR. 12

Outcome of 51 cases of unilateral locked cervical facets: interspinous braided cable for lateral mass plate fusion compared with interspinous wire and facet wiring with iliac crest. SCOTT SHAPIRO, WILLIAM SNYDER, KEVIN KAUFMAN, AND TODD ABEL 19

A new type of microelectrode for obtaining unitary recordings in the human spinal cord. MARC GUENOT, JEAN-MICHEL HUPE, PATRICK MERTENS, ALAN AINSWORTH, JEAN BULLIER, AND MARC SINDOU 25

Surgical treatment for patients with cervical flexion myelopathy. MICHIHIRO KOHNO, HIROSHI TAKAHASHI, KATSUHISA IDE, KENTA YAMAKAWA, TATSUYA SAITOH, AND KIYOHARU INOUE 33

Artificial lamina-assisted laminoplasty performed in seven cases. MAURIZIO FORNARI, GIOVANNI LUCCARELLI, SERGIO GIOMBINI, AND LUISA CHIAPPARINI 43

Significance of a persistent positive straight leg raising test after lumbar disc surgery. BO JÖNSSON AND BJÖRN STRÖMQVIST 50

Magnetic resonance imaging evaluation of the cervical spine in the comatose or obtunded trauma patient. MARK D. D'ALISE, EDWARD C. BENZEL, AND BLAINE L. HART 54

Visceral and vascular complications resulting from anterior lumbar interbody fusion. VISWANATHAN RAJARAMAN, ROY VINGAN, PATRICK ROTH, ROBERT F. HEARY, LISA CONKLIN, AND GEORGE B. JACOBS 60

Nontraumatic acute spinal subdural hematoma. MAURIZIO DOMENICUCCI, ALESSANDRO RAMIERI, PASQUALE CIAPPETTA, AND ROBERTO DELFINI 65

Combined chest wall resection with vertebrectomy and spinal reconstruction for the treatment of Pancoast tumors. JULIE E. YORK, GARRETT L. WALSH, FREDERICK F. LANG, JOE B. PUTNAM, IAN E. MCCUTCHEON, STEPHEN G. SWISHER, RITSUKO KOMAKI, AND ZIYA L. GOKASLAN 74

Occipitocervicothoracic fixation for spinal instability in patients with neoplastic processes. ROBERT J. JACKSON AND ZIYA L. GOKASLAN 81

Endoscopic thoracic sympathectomy. J. PATRICK JOHNSON, CHINYERE OBASI, MICHAEL S. HAHN, AND PAUL GLATLEIDER. 90

LABORATORY INVESTIGATION:

Apoptosis following spinal cord injury in rats and preventative effect of *N*-METHYL-D-ASPARTATE RECEPTOR ANTAGONIST. SHOICHI WADA, KAZUNORI YONE, YASUHIRO ISHIDOU, TOMONORI NAGAMINE, SHINJI NAKAHARA, TAKAHITO NIIYAMA, AND TAKASHI SAKOU 98

CASE REPORTS:

Posterior approach for cervical intramedullary arteriovenous malformation with diffuse-type nidus. Report of three cases. KENJI OHATA, TOSHIHIRO TAKAMI, ALAA EL-NAGGAR, MICHIHARU MORINO, AKIMASA NISHIO, YUICHI INOUE, AND AKIRA HAKUBA 105

Plexiform neurofibroma of the cauda equina. Case report. TRIMURTI D. NADKARNI, HAROLD L. REKATE, AND STEPHEN W. COONS 112

Multiple extradural arachnoid cysts as a cause of spinal cord compression in a child. Case report. LYNN M. MYLES, NALIN GUPTA, DEREK ARMSTRONG, AND JAMES T. RUTKA 116

Anomaly of the axis causing cervical myelopathy. Case report. HIROYUKI ASAKAWA, KIYOYUKI YANAKA, KIYOSHI NARUSHIMA, KOTOO MEGURO, AND TADAO NOSE 121

Anterior sacral meningocele associated with a rectal fistula. Case report and review of the literature. MICHAEL OWEN FITZPATRICK AND WILLIAM A. S. TAYLOR 124

Magnetic resonance imaging–monitored conservative management of traumatic spinal epidural hematomas. Report of four cases. GIOVANNI LA ROSA, DOMENICO D'AVELLA, ALFREDO CONTI, SALVATORE CARDALI, DOMENICO LA TORRE, FABIO CACCIOLA, MARCELLO LONGO, AND FRANCESCO TOMASELLO 128

Percutaneous treatment of gas-containing lumbar disc herniation. Report of two cases. ANDREA RIGHINI, SILVIA LUCCHI, PAOLO REGANATI, MARIO ZAVANONE, AND AGOSTINO BETTINELLI 133

CASE ILLUSTRATION:

Tumoral calcinosis of the lumbar spine. Case illustration. CESLOVAS VAICYS, MICHAEL SCHULDER, LINDA A. SINGLETARY, AND ARTHUR A. GRIGORIAN 137

NEUROSURGICAL FORUM: Letter to the Editor 138

Journal of Neurosurgery: Spine

October 1999, Volume 91, Number 2

Clinical Articles:

Complex atlantoaxial fractures. Bernard Guiot and Richard G. Fessler 139

Rigid occipitocervical fusion. Fernando L. Vale, Mark Oliver, and David W. Cahill 144

Endoscopic transpedicular thoracic discectomy. Hae-Dong Jho 151

Reoperation for herniated thoracic discs. Curtis A. Dickman, Daniel Rosenthal, and John J. Regan 157

Transpedicular instrumentation as an adjunct in the treatment of thoracolumbar and lumbar spine tuberculosis with early stage bone destruction. Tao-Chen Lee, Kang Lu, Lin-Cheng Yang, Hsuan-Ying Huang, and Cheng-Loong Liang 163

Intraoperative electromyographic assessment of recurrent laryngeal nerve stress and pharyngeal injury during anterior cervical spine surgery with Caspar instrumentation. W. Scott Jellish, Randy L. Jensen, Douglas E. Anderson, and John F. Shea 170

Hemangioma of spinal nerve root. Frederico Roncaroli, Bernd W. Scheithauer, and William E. Krauss 175

Surgical treatment of lumbar spinal stenosis in patients older than 75 years of age. Todd W. Vitaz, George H. Raque, Christopher B. Shields, and Steven D. Glassman 181

Posterior lumbar interbody fusion with cages: an independent review of 71 cases. Siviero Agazzi, Daniel May, and Alain Reverdin 186

Intraspinal synovial cysts: 10-year experience at the Ochsner Clinic. Jay U. Howington, Edward S. Connolly, and Rand M. Voorhies 193

Laboratory Investigations:

Effect of mexiletine on lipid peroxidation and early ultrastructural findings in experimental spinal cord injury. Erkan Kaptanoglu, Hakan H. Caner, H. Selçuk Sürücü, and Filiz Akbiyik 200

Magnetic motor evoked potential monitoring in the rat. R. Dean Linden, Yi-Ping Zhang, Darlene A. Burke, Matthew A. Hunt, John E. Harpring, and Christopher B. Shields 205

Case Reports and Technical Note:

Spinal intradural arachnoid cysts located anterior to the cervical spinal cord. Report of two cases and review of the literature. Saim Kazan, Özgür Özdemir, Mahmut Akyüz, and Recai Tuncer 211

Primary hydatid disease of the spine: an unusual cause of progressive paraplegia. Case report and review of the literature. Shekhar Y. Bhojraj and Nitin R. Shetty 216

Osteochondroma of the L-5 vertebra: a rare cause of sciatic pain. Case report. Ettore Fiumara, Tommaso Scarabino, Giuseppe Guglielmi, Michele Bisceglia, and Vincenzo D'Angelo 219

Extensive arachnoid ossification with associated syringomyelia presenting as thoracic myelopathy. Case report and review of the literature. Konstantin V. Slavin, Randall R. Nixon, Gary M. Nesbit, and Kim J. Burchiel 223

Symptomatic ossification of the posterior longitudinal ligament of the lumbar spine. Case report. Cheng-Chih Liao and Shih-Tseng Lee 230

Fracture of an ossified transverse ligament. Case report. John E. Crossman, John M. Stevens, and H. Alan Crockard 233

Simultaneous anterior–posterior approach for excision of malignant paraspinal tumor and subsequent reconstruction. Technical note. Kazuhiro Hasegawa, Akira Ogose, Hiroto Kobayashi, Tetsuro Morita, and Yasuharu Hirata 236

Case Illustrations:

Intradural extramedullary cauda equina astrocytoma. Case illustration Toshiaki Hayashi, Akifumi Suzuki, Yasuji Yoshida, Hiromu Hadeishi, Takaaki Yoshida, and Nobuyuki Yasui 241

Intradural nerve root hematoma in the lumbar spine. Case illustration. Mustafa K. Baskaya, Richard Roberts, and Richard S. Polin 242

Subject Index

Acute spinal cord injury
An evidence-based review of decompressive surgery in acute spinal cord injury: rationale, indications, and timing based on experimental and clinical studies, 1
Current use and timing of spinal surgery for management of acute spinal cord injury in North America: results of a retrospective multicenter study, 12
Anomaly
Anomaly of the axis causing cervical myelopathy. Case report, 121
Anterior sacral meningocele
Anterior sacral meningocele associated with a rectal fistula. Case report and review of the literature, 124
Apoptosis
Apoptosis following spinal cord injury in rats and preventative effect of *N*-methyl-D-aspartate receptor antagonist, 98
Arachnoid cyst
Spinal intradural arachnoid cysts located anterior to the cervical spinal cord. Report of two cases and review of the literature, 211
Arachnoiditis
Extensive arachnoid ossification with associated syringomyelia presenting as thoracic myelopathy. Case report and review of the literature, 223
Arteriovenous malformation
Posterior approach for cervical intramedullary arteriovenous malformation with diffuse-type nidus. Report of three cases, 105
Astrocytoma
Intradural extramedullary cauda equina astrocytoma. Case illustration, 241
Atlas
Complex atlantoaxial fractures, 139
Axis
Anomaly of the axis causing cervical myelopathy. Case report, 121
Complex atlantoaxial fractures, 139

Basilar invagination
Rigid occipitocervical fusion, 144
Braided cable
Outcome of 51 cases of unilateral locked cervical facets: interspinous braided cable for lateral mass plate fusion compared with interspinous wire and facet wiring with iliac crest, 19

Cages
Posterior lumbar interbody fusion with cages: an independent review of 71 cases, 186
Calcium pyrophosphate dihydrate crystal
Tumoral calcinosis of the lumbar spine. Case illustration, 137
Cauda equina
Intradural extramedullary cauda equina astrocytoma. Case illustration, 241
Plexiform neurofibroma of the cauda equina. Case report, 112
Causalgia
Endoscopic thoracic sympathectomy, 90
Cervical instrumentation
Rigid occipitocervical fusion, 144
Cervical spine
Magnetic resonance imaging evaluation of the cervical spine in the comatose or obtunded trauma patient, 54
Posterior approach for cervical intramedullary arteriovenous malformation with diffuse-type nidus. Report of three cases, 105
Spinal intradural arachnoid cysts located anterior to the cervical spinal cord. Report of two cases and review of the literature, 211
Cervical spine injury
Complex atlantoaxial fractures, 139
Outcome of 51 cases of unilateral locked cervical facets: interspinous braided cable for lateral mass plate fusion compared with interspinous wire and facet wiring with iliac crest, 19
Intraoperative electromyographic assessment of recurrent laryngeal nerve stress and pharyngeal injury during anterior cervical spine surgery with Caspar instrumentation, 170
Cervical spondylosis
Artificial lamina-assisted laminoplasty performed in seven cases, 43
Chest wall resection
Combined chest wall resection with vertebrectomy and spinal reconstruction for the treatment of Pancoast tumors, 74
Clinical management
Fracture of an ossified transverse ligament. Case report, 233
Complex regional pain syndrome
Endoscopic thoracic sympathectomy, 90
Computerized tomography scanning
Extensive arachnoid ossification with associated syringomyelia presenting as thoracic myelopathy. Case report and review of the literature, 223
Congenital abnormality
Fracture of an ossified transverse ligament. Case report, 233
Conservative management
Magnetic resonance imaging–monitored conservative management of traumatic spinal epidural hematomas. Report of four cases, 128
Craniocervical instability
Rigid occipitocervical fusion, 144
Craniovertebral junction
Anomaly of the axis causing cervical myelopathy. Case report, 121

Decompressive surgery
An evidence-based review of decompressive surgery in acute spinal cord injury: rationale, indications, and timing based on experimental and clinical studies, 1
Surgical treatment for patients with cervical flexion myelopathy, 33
Degenerative disc disease
Posterior lumbar interbody fusion with cages: an independent review of 71 cases, 186
Dermal sinus
Plexiform neurofibroma of the cauda equina. Case report, 112

Diagnostic imaging
Nontraumatic acute spinal subdural hematoma. Report of five cases and review of the literature, 65
Primary hydatid disease of the spine: an unusual cause of progressive paraplegia. Case report and review of the literature, 216
Diffuse-type nidus
Posterior approach for cervical intramedullary arteriovenous malformation with diffuse-type nidus. Report of three cases, 105
Disc herniation
Reoperation for herniated thoracic discs, 157
Significance of a persistent positive straight leg raising test after lumbar disc surgery, 50
Discectomy
Endoscopic transpedicular thoracic discectomy, 151
Reoperation for herniated thoracic discs, 157
Dorsal horn
A new type of microelectrode for obtaining unitary recordings in the human spinal cord, 25
Dysphonia
Intraoperative electromyographic assessment of recurrent laryngeal nerve stress and pharyngeal injury during anterior cervical spine surgery with Caspar instrumentation, 170

Electromyography
Intraoperative electromyographic assessment of recurrent laryngeal nerve stress and pharyngeal injury during anterior cervical spine surgery with Caspar instrumentation, 170
Electrophysiological monitoring
Magnetic motor evoked potential monitoring in the rat, 205
En bloc resection
Simultaneous anterior–posterior approach for excision of malignant paraspinal tumor and subsequent reconstruction. Technical note, 236
Endoscopy
Endoscopic transpedicular thoracic discectomy, 151
Epidural gas
Percutaneous treatment of gas-containing lumbar disc herniation. Report of two cases, 133
Excitatory amino acid
Apoptosis following spinal cord injury in rats and preventative effect of *N*-methyl-D-aspartate receptor antagonist, 98
Exostoses
Osteochondroma of the L-5 vertebra: a rare cause of sciatic pain. Case report, 219
Experimental spinal cord injury
Apoptosis following spinal cord injury in rats and preventative effect of *N*-methyl-D-aspartate receptor antagonist, 98
Extradural cyst
Multiple extradural arachnoid cysts as a cause of spinal cord compression in a child. Case report, 116

Facet joint
Intraspinal synovial cysts: 10-year experience at the Ochsner Clinic, 193
Flexion myelopathy
Surgical treatment for patients with cervical flexion myelopathy, 33
Fracture
Complex atlantoaxial fractures, 139
Fracture of an ossified transverse ligament. Case report, 233

Free radical
Effect of mexiletine on lipid peroxidation and early ultrastructural findings in experimental spinal cord injury, 200

Hemangioendothelioma
Hemangioma of spinal nerve root, 175
Hemangioma
Hemangioma of spinal nerve root, 175
Hematoma
Intradural nerve root hematoma in the lumbar spine. Case illustration, 242
Nontraumatic acute spinal subdural hematoma. Report of five cases and review of the literature, 65
Hirayama's disease
Surgical treatment for patients with cervical flexion myelopathy, 33
Hyperhidrosis
Endoscopic thoracic sympathectomy, 90

Instability catch
Transpedicular instrumentation as an adjunct in the treatment of thoracolumbar and lumbar spine tuberculosis with early stage bone destruction, 163
Intermittent claudication
Symptomatic ossification of the posterior longitudinal ligament of the lumbar spine. Case report, 230
Intervertebral disc
Endoscopic transpedicular thoracic discectomy, 151
Intervertebral disc herniation
Percutaneous treatment of gas-containing lumbar disc herniation. Report of two cases
Intradural
Nontraumatic acute spinal subdural hematoma. Report of five cases and review of the literature, 65
Intradural extramedullary tumor
Intradural extramedullary cauda equina astrocytoma. Case illustration, 241
Intradural nerve root
Intradural nerve root hematoma in the lumbar spine. Case illustration, 242
Intramedullary lesion
Posterior approach for cervical intramedullary arteriovenous malformation with diffuse-type nidus. Report of three cases, 105

Juvenile muscle atrophy of unilateral upper extremity
Surgical treatment for patients with cervical flexion myelopathy, 33
Juvenile-type nidus
Posterior approach for cervical intramedullary arteriovenous malformation with diffuse-type nidus. Report of three cases, 105

Laminoplasty
Artificial lamina-assisted laminoplasty performed in seven cases, 43
Lateral mass plate
Outcome of 51 cases of unilateral locked cervical facets: interspinous braided cable for lateral mass plate fusion compared with interspinous wire and facet wiring with iliac crest, 19
Lipid peroxidation
Effect of mexiletine on lipid peroxidation and early ultrastructural findings in experimental spinal cord injury, 200

Lumbar fusion
Visceral and vascular complications resulting from anterior lumbar interbody fusion, 60
Lumbar spine
Intradural nerve root hematoma in the lumbar spine. Case illustration, 242
Surgical treatment of lumbar spinal stenosis in patients older than 75 years of age, 181
Symptomatic ossification of the posterior longitudinal ligament of the lumbar spine. Case report, 230
Tumoral calcinosis of the lumbar spine. Case illustration, 137
Lumbar spine surgery
Significance of a persistent positive straight leg raising test after lumbar disc surgery, 50

Magnetic resonance imaging
Magnetic resonance imaging evaluation of the cervical spine in the comatose or obtunded trauma patient, 54
Magnetic resonance imaging–monitored conservative management of traumatic spinal epidural hematomas. Report of four cases, 128
Plexiform neurofibroma of the cauda equina. Case report, 112
Meningitis
Anterior sacral meningocele associated with a rectal fistula. Case report and review of the literature, 124
Methylprednisolone
Effect of mexiletine on lipid peroxidation and early ultrastructural findings in experimental spinal cord injury, 200
Mexiletine
Effect of mexiletine on lipid peroxidation and early ultrastructural findings in experimental spinal cord injury, 200
Microelectrode
A new type of microelectrode for obtaining unitary recordings in the human spinal cord, 25
Minimally invasive neurosurgery
Endoscopic transpedicular thoracic discectomy, 151
Multicenter clinical study
Current use and timing of spinal surgery for management of acute spinal cord injury in North America: results of a retrospective multicenter study, 12
Myelopathy
Anomaly of the axis causing cervical myelopathy. Case report, 121
Extensive arachnoid ossification with associated syringomyelia presenting as thoracic myelopathy. Case report and review of the literature, 223

N-methyl-D-aspartate receptor
Apoptosis following spinal cord injury in rats and preventative effect of *N*-methyl-D-aspartate receptor antagonist, 98
Nerve root compression
Osteochondroma of the L-5 vertebra: a rare cause of sciatic pain. Case report, 219
Percutaneous treatment of gas-containing lumbar disc herniation. Report of two cases, 133
Neurofibromatosis Type 1
Plexiform neurofibroma of the cauda equina. Case report, 112

Occipitocervical fixation device
Occipitocervicothoracic fixation for spinal instability in patients with neoplastic processes, 81
Occipitocervical fusion
Rigid occipitocervical fusion, 144
Ossification
Extensive arachnoid ossification with associated syringomyelia presenting as thoracic myelopathy. Case report and review of the literature, 223
Fracture of an ossified transverse ligament. Case report, 233
Symptomatic ossification of the posterior longitudinal ligament of the lumbar spine. Case report, 230
Ossification of the posterior longitudinal ligament
Artificial lamina-assisted laminoplasty performed in seven cases, 43
Osteochondroma
Osteochondroma of the L-5 vertebra: a rare cause of sciatic pain. Case report, 219
Outcome
Surgical treatment of lumbar spinal stenosis in patients older than 75 years of age, 181

Pancoast tumor
Combined chest wall resection with vertebrectomy and spinal reconstruction for the treatment of Pancoast tumors, 74
Paraspinal malignant tumor
Simultaneous anterior–posterior approach for excision of malignant paraspinal tumor and subsequent reconstruction. Technical note, 236
Percutaneous surgery
Percutaneous treatment of gas-containing lumbar disc herniation. Report of two cases, 133
Plexiform neurofibroma
Plexiform neurofibroma of the cauda equina. Case report, 112
Posterior longitudinal ligament
Symptomatic ossification of the posterior longitudinal ligament of the lumbar spine. Case report, 230
Postoperative complications
Visceral and vascular complications resulting from anterior lumbar interbody fusion, 60

Rat
Magnetic motor evoked potential monitoring in the rat, 205
Raynaud's syndrome
Endoscopic thoracic sympathectomy, 90
Rectal fistula
Anterior sacral meningocele associated with a rectal fistula. Case report and review of the literature, 124
Recurrent laryngeal nerve
Intraoperative electromyographic assessment of recurrent laryngeal nerve stress and pharyngeal injury during anterior cervical spine surgery with Caspar instrumentation, 170
Reflex sympathetic dystrophy
Endoscopic thoracic sympathectomy, 90
Retroperitoneal approach
Visceral and vascular complications resulting from anterior lumbar interbody fusion, 60
Review
An evidence-based review of decompressive surgery in acute spinal cord injury: rationale, indications, and timing based on experimental and clinical studies, 1
Rheumatoid arthritis
Rigid occipitocervical fusion, 144

Sciatica
Significance of a persistent positive straight leg raising test after lumbar disc surgery, 50
Simultaneous anterior and posterior approach
Simultaneous anterior–posterior approach for excision of malignant paraspinal tumor and subsequent reconstruction. Technical note, 236
Soft-tissue injury
Magnetic resonance imaging evaluation of the cervical spine in the comatose or obtunded trauma patient, 54
Spina bifida
Anomaly of the axis causing cervical myelopathy. Case report, 121
Spinal arachnoid cyst
Multiple extradural arachnoid cysts as a cause of spinal cord compression in a child. Case report, 116
Spinal cord
A new type of microelectrode for obtaining unitary recordings in the human spinal cord, 25
Spinal intradural arachnoid cysts located anterior to the cervical spinal cord. Report of two cases and review of the literature, 211
Spinal cord compression
Multiple extradural arachnoid cysts as a cause of spinal cord compression in a child. Case report, 116
Nontraumatic acute spinal subdural hematoma. Report of five cases and review of the literature, 65
Primary hydatid disease of the spine: an unusual cause of progressive paraplegia. Case report and review of the literature, 216
Spinal cord injury
Effect of mexiletine on lipid peroxidation and early ultrastructural findings in experimental spinal cord injury, 200
Magnetic motor evoked potential monitoring in the rat, 205
Magnetic resonance imaging–monitored conservative management of traumatic spinal epidural hematomas. Report of four cases, 128
Spinal epidural hematoma
Magnetic resonance imaging–monitored conservative management of traumatic spinal epidural hematomas. Report of four cases, 128
Spinal fusion
Occipitocervicothoracic fixation for spinal instability in patients with neoplastic processes, 81
Posterior lumbar interbody fusion with cages: an independent review of 71 cases, 186
Spinal hydatid disease
Primary hydatid disease of the spine: an unusual cause of progressive paraplegia. Case report and review of the literature, 216
Spinal instrumentation
Outcome of 51 cases of unilateral locked cervical facets: interspinous braided cable for lateral mass plate fusion compared with interspinous wire and facet wiring with iliac crest, 19
Posterior lumbar interbody fusion with cages: an independent review of 71 cases, 186
Spinal nerve root
Hemangioma of spinal nerve root, 175
Spinal puncture
Nontraumatic acute spinal subdural hematoma. Report of five cases and review of the literature, 65
Spinal reconstruction
Combined chest wall resection with vertebrectomy and spinal reconstruction for the treatment of Pancoast tumors, 74
Simultaneous anterior–posterior approach for excision of malignant paraspinal tumor and subsequent reconstruction. Technical note, 236
Spinal stabilization
Occipitocervicothoracic fixation for spinal instability in patients with neoplastic processes, 81
Posterior lumbar interbody fusion with cages: an independent review of 71 cases, 186
Spinal stenosis
Surgical treatment of lumbar spinal stenosis in patients older than 75 years of age, 181
Spinal tuberculosis
Transpedicular instrumentation as an adjunct in the treatment of thoracolumbar and lumbar spine tuberculosis with early stage bone destruction, 163
Spine
Intraspinal synovial cysts: 10-year experience at the Ochsner Clinic, 193
Occipitocervicothoracic fixation for spinal instability in patients with neoplastic processes, 81
Straight leg raising test
Significance of a persistent positive straight leg raising test after lumbar disc surgery, 50
Superior sulcus tumor
Combined chest wall resection with vertebrectomy and spinal reconstruction for the treatment of Pancoast tumors, 74
Surgical approach
Posterior approach for cervical intramedullary arteriovenous malformation with diffuse-type nidus. Report of three cases, 105
Surgical treatment
Surgical treatment of lumbar spinal stenosis in patients older than 75 years of age, 181
Sympathectomy
Endoscopic thoracic sympathectomy, 90
Sympathetic dysfunction
Visceral and vascular complications resulting from anterior lumbar interbody fusion, 60
Synovial cyst
Intraspinal synovial cysts: 10-year experience at the Ochsner Clinic, 193
Syringomyelia
Extensive arachnoid ossification with associated syringomyelia presenting as thoracic myelopathy. Case report and review of the literature, 223

Terminal deoxynucleotidyl transferase–mediated deoxyuridine triphosphate nick-end labeling staining
Apoptosis following spinal cord injury in rats and preventative effect of *N*-methyl-D-aspartate receptor antagonist, 98
Thoracic spine
Endoscopic transpedicular thoracic discectomy, 151
Extensive arachnoid ossification with associated syringomyelia presenting as thoracic myelopathy. Case report and review of the literature, 223
Reoperation for herniated thoracic discs, 157
Thoracoscopy
Endoscopic thoracic sympathectomy, 90
Reoperation for herniated thoracic discs, 157
Timing of surgery
Current use and timing of spinal surgery for management of acute spinal cord injury in North America: results of a retrospective multicenter study, 12
Transcranial motor evoked potentials
Magnetic motor evoked potential monitoring in the rat, 205
Transpedicular instrumentation
Transpedicular instrumentation as an adjunct in the treatment of thoracolumbar and lumbar spine tuberculosis with early stage bone destruction, 163

Transverse ligament
Fracture of an ossified transverse ligament. Case report, 233
Trauma
Magnetic resonance imaging evaluation of the cervical spine in the comatose or obtunded trauma patient, 54
Tumor
Occipitocervicothoracic fixation for spinal instability in patients with neoplastic processes, 81
Tumoral calcinosis
Tumoral calcinosis of the lumbar spine. Case illustration, 137

Unilateral locked facet
Outcome of 51 cases of unilateral locked cervical facets: interspinous braided cable for lateral mass plate fusion compared with interspinous wire and facet wiring with iliac crest, 19

Venous injury
Visceral and vascular complications resulting from anterior lumbar interbody fusion, 60
Vertebra
Endoscopic transpedicular thoracic discectomy, 151
Vertebrectomy
Combined chest wall resection with vertebrectomy and spinal reconstruction for the treatment of Pancoast tumors, 74
